BRAIN RESEARCH

Author Index

Abe, K., see Sugimoto, K. (666) 279
Abe, T., see Honda, T. (666) 263
Abe, Y., see Shoji, T. (666) 68
Abekawa, T., Ohmori, T. and Koyama, T.
Effect of NO synthase inhibition on behavioral changes induced by a single administration of methamphetamine (666) 147
Abraham, C.R., see Mucke, L. (666) 151
Alford, M., see Mucke, L. (666) 151
Anderson, L.A., see Soltis, R.P. (666) 21
Anisman, H., see Shanks, N. (666) 77

Beninger, R.J., see Smith, C.G. (666) 61
Bennett, G.J., see Xiao, W.-H. (666) 168
Boegman, R.J., see Smith, C.G. (666) 61
Breimer, D.D., see De Lange, E.C.M. (666) 1
Browne, S.E. and Macrae, I.M.
Differential patterns of local cerebral glucose utilisation associated with rilmenidine- or B-HT 933-induced hypotension (666) 216
Bucinskaite, V., Lundeberg, T., Stenfors, C., Ekblom, A., Dahlin, L. and Theodorsson, E.
Effects of electro-acupuncture and physical exercise on regional concentrations of neuropeptides in rat brain (666) 128
Bültmann, R., see Driessen, B. (666) 182

Cattaert, D., El Manira, A. and Clarac, F.
Chloride conductance produces both presynaptic inhibition and antidromic spikes in primary afferents (666) 109
Chen, J.-Y., see Li, Y.-J. (666) 113
Chorney, D.A., see Vaccarino, A.L. (666) 104
Church, J., Sawyer, D. and McLarnon, J.G.
Interactions of dextromethorphan with the *N*-methyl-D-aspartate receptor-channel complex: single channel recordings (666) 189
Clarac, F., see Cattaert, D. (666) 109

Dahlin, L., see Bucinskaite, V. (666) 128
Dahlin, S.L., see Wolf, M.E. (666) 223
Danhof, M., see De Lange, E.C.M. (666) 1
Danielsen, N., Kerns, J.M., Holmquist, B., Zhao, Q., Lundborg, G. and Kanje, M.
Pre-degenerated nerve grafts enhance regeneration by shortening the initial delay period (666) 250
Davis, M., see Lee, Y. (666) 93
De Boer, A.G., see De Lange, E.C.M. (666) 1
Decker, K. and Reuss, S.
Nitric oxide-synthesizing neurons in the hamster suprachiasmatic nucleus: a combined NOS- and NADPH- staining and retinohypothalamic tract tracing study (666) 284
De Lange, E.C.M., Danhof, M., De Boer, A.G. and Breimer, D.D.
Critical factors of intracerebral microdialysis as a technique to determined the pharmacokinetics of drugs in rat brain (666) 1
Driessen, B., Reimann, W., Selve, N., Friderichs, E. and Bültmann, R.
Antinociceptive effect of intrathecally administered P_2-purinoceptor antagonists in rats (666) 182
Dryver, E., see Shors, T.J. (666) 232
Dun, N.J., Huang, R., Dun, S.L. and Förstermann, U.
Infrequent co-localization of nitric oxide synthase and calcium binding proteins immunoreactivity in rat neocortical neurons (666) 289
Dun, S.L., see Dun, N.J. (666) 289

Ekblom, A., see Bucinskaite, V. (666) 128
El Manira, A., see Cattaert, D. (666) 109

Faden, A.I., see Sun, F.-Y. (666) 88
Forss-Petter, S., see Mucke, L. (666) 151
Förstermann, U., see Dun, N.J. (666) 289
Francis, D., see Shanks, N. (666) 77
French, E.D., see Wang, T. (666) 255
Freudenberger, U., see Neugebauer, V. (666) 207
Friderichs, E., see Driessen, B. (666) 182
Fujiwara, N., see Honda, T. (666) 263
Fukumoto, H., see Kaisho, Y. (666) 143
Furihata, E., see Shoji, T. (666) 68

Girvin, J.P., see McLachlan, R.S. (666) 133

Hamajima, K., see Hattori, S. (666) 43
Hattori, S., Okuda, K., Hamajima, K., Sakimura, K., Mishina, M. and Kawamoto, S.
Expression and characterization of the $\alpha 2$ subunit of the α-amino-3-hydroxy-5-methyl-4-isoxazole propionate (AMPA)-selective glutamate receptor channel in a baculovirus system (666) 43
Helferich, W., see Mistry, A.M. (666) 53
Holmquist, B., see Danielsen, N. (666) 250
Honda, T., Fujiwara, N., Abe, T., Kumanishi, T., Yoshimura, M. and Shimoji, K.
Prior mechanical injury inhibits rise in intracellular Ca^{2+} concentration by oxygen–glucose deprivation in mouse hippocampal slices (666) 263
Huang, R., see Dun, N.J. (666) 289

Igarashi, K., see Kaisho, Y. (666) 143
Ijaz, S., see Shuaib, A. (666) 99
Itoyama, Y., see Sugimoto, K. (666) 279
Itoyama, Y., see Takeda, A. (666) 120

Jahnsen, H. and Karnup, S.
A spectral analysis of the integration of artificial synaptic potentials in mammalian central neurons (666) 9
Jhamandas, K., see Smith, C.G. (666) 61
Johnson, J.L.
Discharge frequencies and intervals between pulses: are they always the same? (666) 125
Johnson, W.B., see Mucke, L. (666) 151

Kaisho, Y., Shintani, A., Nishida, M., Fukumoto, H. and Igarashi, K.
Developmental changes of neurotrophin-3 level in the mouse brain detected by a highly sensitive enzyme immunoassay (666) 143
Kanje, M., see Danielsen, N. (666) 250
Kanthan, R., see Shuaib, A. (666) 99
Karnup, S., see Jahnsen, H. (666) 9
Kawamoto, S., see Hattori, S. (666) 43
Kelland, M.D., see Soltis, R.P. (666) 21
Kelley, M.R., see Rivkees, S.A. (666) 137
Kerns, J.M., see Danielsen, N. (666) 250
Kishimoto, Y., see Terashima, T. (666) 31
Kogure, K., see Sugimoto, K. (666) 279

Kogure, K., see Takeda, A. (666) 120
Kondo, H., see Sakagami, H. (666) 173
Kow, L.-M., see Ogawa, S. (666) 239
Koyama, T., see Abekawa, T. (666) 147
Kumanishi, T., see Honda, T. (666) 263
Kurihara, K., see Shoji, T. (666) 68

Lappi, D.A., see Picklo, M.J. (666) 195
Lee, T.-H., see Sugimoto, K. (666) 279
Lee, Y., Schulkin, J. and Davis, M.
Effect of corticosterone on the enhancement of the acoustic startle reflex by corticotropin releasing factor (CRF) (666) 93
Li, Y.-J., Zhang, Z.-H., Chen, J.-Y. and Qiao, J.-T.
Effects of intrathecal naloxone and atropine on the nociceptive suppression induced by norepinephrine and serotonin at the spinal level in rats (666) 113
London, J.A. and Wehby, R.G.
Classification of inhibitory responses of the hamster gustatory cortex (666) 270
Lundborg, G., see Danielsen, N. (666) 250
Lundeberg, T., see Bucinskaite, V. (666) 128

Macrae, I.M., see Browne, S.E. (666) 216
Mainprize, T., see Shuaib, A. (666) 99
Mallet, P.E., see Smith, C.G. (666) 61
Mallory, M., see Mucke, L. (666) 151
Masliah, E., see Mucke, L. (666) 151
McLachlan, R.S. and Girvin, J.P.
Spreading depression of Leão in rodent and human cortex (666) 133
McLarnon, J.G., see Church, J. (666) 189
Meaney, M.J., see Shanks, N. (666) 77
Mishina, M., see Hattori, S. (666) 43
Mistry, A.M., Helferich, W. and Romsos, D.R.
Elevated neuronal c-Fos-like immunoreactivity and messenger ribonucleic acid (mRNA) in genetically obese (*ob/ob*) mice (666) 53
Miyashita, H., see Shuaib, A. (666) 99
Mucke, L., Masliah, E., Johnson, W.B., Ruppe, M.D., Alford, M., Rockenstein, E.M., Forss-Petter, S., Pietropaolo, M., Mallory, M. and Abraham, C.R.
Synaptotrophic effects of human amyloid β protein precursors in the cortex of transgenic mice (666) 151

Neugebauer, V., Schaible, H.-G., Weiretter, F. and Freudenberger, U.
The involvement of substance P and neurokinin-1 receptors in the responses of rat dorsal horn neurons to noxious but not to innocuous mechanical stimuli applied to the knee joint (666) 207
Nishida, M., see Kaisho, Y. (666) 143

Ochiishi, T., see Terashima, T. (666) 31
O'Connor, W.T., see Wang, T. (666) 255
Ogawa, S., Kow, L.-M. and Pfaff, D.W.
In vitro electrophysiological characterization of midbrain periaqueductal gray neurons in female rats: responses to GABA- and Met-enkephalin-related agents (666) 239
Ohmori, T., see Abekawa, T. (666) 147
Okuda, K., see Hattori, S. (666) 43
Onodera, H., see Takeda, A. (666) 120

Pfaff, D.W., see Ogawa, S. (666) 239
Phelps, S.M. and Ramirez, V.D.
Unilateral deficits induced in rats by MPP^+ are markedly reduced by an N-terminal peptide fragment of dopamine-releasing protein (666) 117
Picklo, M.J., Wiley, R.G., Lappi, D.A. and Robertson, D.
Noradrenergic lesioning with an anti-dopamine β-hydroxylase immunotoxin (666) 195
Pietropaolo, M., see Mucke, L. (666) 151
Pike, N.V., see Wayman, C.P. (666) 201

Qiao, J.-T., see Li, Y.-J. (666) 113

Ramirez, V.D., see Phelps, S.M. (666) 117
Reimann, W., see Driessen, B. (666) 182
Reuss, S., see Decker, K. (666) 284
Rivkees, S.A. and Kelley, M.R.
Expression of a multifunctional DNA repair enzyme gene, apurinic/apyrimidinic endonuclease (APE; Ref-1) in the suprachiasmatic, supraoptic and paraventricular nuclei (666) 137
Robertson, D., see Picklo, M.J. (666) 195
Rockenstein, E.M., see Mucke, L. (666) 151
Romsos, D.R., see Mistry, A.M. (666) 53
Ruppe, M.D., see Mucke, L. (666) 151

Sakagami, H., Tsubochi, H. and Kondo, H.
Immunohistochemical localization of Ca^{2+}/calmodulin-dependent protein kinase type IV in the peripheral ganglia and paraganglia of developing and mature rats (666) 173
Sakimura, K., see Hattori, S. (666) 43
Sakurai, E., see Sugimoto, K. (666) 279
Sawyer, D., see Church, J. (666) 189
Schaible, H.-G., see Neugebauer, V. (666) 207
Schulkin, J., see Lee, Y. (666) 93
Selve, N., see Driessen, B. (666) 182
Shanks, N., Francis, D., Zalcman, S., Meaney, M.J. and Anisman, H.
Alterations in central catecholamines associated with immune responding in adult and aged mice (666) 77
Shibahara, S., see Takeda, A. (666) 120
Shimoji, K., see Honda, T. (666) 263
Shintani, A., see Kaisho, Y. (666) 143
Shoji, T., Abe, Y., Furihata, E. and Kurihara, K.
High sensitivity of the turtle olfactory system to nonvolatile substances: comparison of response properties with those in gustatory systems (666) 68
Shors, T.J. and Dryver, E.
Effect of stress and long-term potentiation (LTP) on subsequent LTP and the theta burst response in the dentate gyrus (666) 232
Shuaib, A., Ijaz, S., Miyashita, H., Mainprize, T. and Kanthan, R.
Progressive decrease in extracellular GABA concentrations in the post-ischemic period in the striatum: a microdialysis study (666) 99
Smith, C.G., Beninger, R.J., Mallet, P.E., Jhamandas, K. and Boegman, R.J.
Basal forebrain injections of the benzodiazepine partial inverse agonist FG 7142 enhance memory of rats in the double Y-maze (666) 61
Soltis, R.P., Anderson, L.A., Walters, J.R. and Kelland, M.D.
A role for non-NMDA excitatory amino acid receptors in regulating the basal activity of rat globus pallidus neurons and their activation by the subthalamic nucleus (666) 21
Stenfors, C., see Bucinskaite, V. (666) 128
Sugimoto, A., see Takeda, A. (666) 120
Sugimoto, K., Abe, K., Lee, T.-H., Sakurai, E., Yanai, K., Kogure, K., Itoyama, Y. and Watanabe, T.
Histamine depletion in brain caused by treatment with (*S*)α-fluoromethylhistidine enhances ischemic damage of gerbil hippocampal CA2 neurons (666) 279
Sun, F.-Y. and Faden, A.I.
High- and low-affinity NMDA receptor-binding sites in rat spinal cord: effects of traumatic injury (666) 88

Takeda, A., Onodera, H., Sugimoto, A., Itoyama, Y., Kogure, K. and Shibahara, S.
Increased expression of heme oxygenase mRNA in rat brain following transient forebrain ischemia (666) 120
Terashima, T., Kishimoto, Y. and Ochiishi, T.
Musculotopic organization in the motor trigeminal nucleus of the reeler mutant mouse (666) 31
Theodorsson, E., see Bucinskaite, V. (666) 128
Tsubochi, H., see Sakagami, H. (666) 173

Ungerstedt, U., see Wang, T. (666) 255

Vaccarino, A.L. and Chorney, D.A.
Descending modulation of central neural plasticity in the formalin pain test (666) 104

Walters, J.R., see Soltis, R.P. (666) 21
Wang, T., O'Connor, W.T., Ungerstedt, U. and French, E.D.

N-Methyl-D-aspartic acid biphasically regulates the biochemical and electrophysiological response of A10 dopamine neurons in the ventral tegmental area: in vivo microdialysis and in vitro electrophysiological studies (666) 255
Wannier, T.
Rostro-caudal distribution of reticulospinal projections from different brainstem nuclei in the lamprey (666) 275
Watanabe, T., see Sugimoto, K. (666) 279
Wayman, C.P., Pike, N.V. and Wilson, J.F.
N-Methyl-D-aspartate (NMDA) stimulates release of α-MSH from the rat hypothalamus through release of nitric oxide (666) 201
Wehby, R.G., see London, J.A. (666) 270
Weiretter, F., see Neugebauer, V. (666) 207
White, F.J., see Wolf, M.E. (666) 223
Wiley, R.G., see Picklo, M.J. (666) 195
Wilson, J.F., see Wayman, C.P. (666) 201
Wolf, M.E., Xue, C.-J., White, F.J. and Dahlin, S.L.
MK-801 does not prevent acute stimulatory effects of amphetamine or cocaine on locomotor activity or extracellular dopamine levels in rat nucleus accumbens (666) 223
Xiao, W.-H. and Bennett, G.J.
Magnesium suppresses neuropathic pain responses in rats via a spinal site of action (666) 168
Xue, C.-J., see Wolf, M.E. (666) 223

Yanai, K., see Sugimoto, K. (666) 279
Yoshimura, M., see Honda, T. (666) 263

Zalcman, S., see Shanks, N. (666) 77
Zhang, Z.-H., see Li, Y.-J. (666) 113
Zhao, Q., see Danielsen, N. (666) 250
